**Stellarossa Espresso Bars are based on one mission: to provide coffee drinkers with a premium quality coffee experience, each and every time they visit.**

## *Coffee Beans*

The highest grades of Arabica beans are sourced from around the world, and then crafted into our exclusive blends. We ensure these exclusive blends are stored and aged before use, to maximize flavour and enjoyment.

## *Baristas*

At Stellarossa, all of our baristas are put through extensive training to ensure your coffee is of a consistently high standard.

## *From Crop to Cup*

Our green bean partner specialises in Farmer direct trade, ensuring greater return to the farmers and supplying educational support around farming processes, crop management and sustainability. This way we ensure ethically responsible farming, sustainable coffee production and traceability of coffee at every Stellarossa location.
